The Visit

by Friedrich Dürrenmatt
Adapted by Maurice Valency
Directed by James Shelby

“The Visit,” a tragi-comedy by Friedrich Dürrenmatt, originally took place in central Europe in the fifties. We have moved it to tiny Goodland, Kansas, at the height of the dustbowl days during the Great Depression. This powerful indictment of the way people allow money to control their lives and alter their characters, focuses upon Claire Zuchanassian, one of the wealthiest women in the world, who returns to the rundown town where she grew up. The townspeople, hoping the aging billionaire might part with some of her riches, court her eagerly. She consents to donate millions, but there is, of course, a grisly catch....This darkly witty exploration of hypocrisy, materialism, obsession and good old-fashioned small town values opens one week after the election! Fasten your seat belts, it’s going to be a bumpy night....
